I agree to witness or supervise the following procedures when cutting budwood:

1. Select proper tree, checking overall health and vigor of the tree.
2. Verifying the tree identity and row/tree count on Certificate of Citrus Tree Registration.
3. Sterilize all clippers thoroughly before cutting tree.
4. Remove all root sprouts before cutting of budwood.
5. Count, bundle, and tag budwood from each tree separately.
6. Fill out the Source Tree Bud Cutting Report, FDACS-08172, Rev. 05/12, exactly as shown on Certificate of Source Tree Registration, FDACS-08072, Rev. 03/14.
7. Submit Bud Cutting Reports to the Budwood Office daily.
