I/we agree to handle, pack, process, and move regulated articles in accordance with applicable plant quarantines; use all permits and certificates in accordance with instructions; maintain and offer for inspection such records as may be required; and abide by the following stipulations:

**In order to ensure compliance with California’s Caribbean fruit fly exterior quarantine (CCR 3252), the following conditions will be adhered to:**

1. All mamey fruit (Pouteria sapota) shipped to California will be obtained from Florida producers, inspected for pests by the shipper, certified as Florida grown by the department, and then packed and shipped in new boxes from Florida.

2. There will be no co-mingling with mamey fruit (Pouteria sapota) not of Florida origin, or any other fruit of any kind not certified for shipment to California. All mamey fruit destined for California will be kept safeguarded from pests while in Florida storage and during shipment.

3. Each shipment will be accompanied by a tag or stamp imprint authorized by the department signifying that the fruit is Florida grown (i.e., was harvested solely from trees producing in Florida).

4. Any pest interceptions associated with mamey shipments or changes in California regulations may void this agreement.

5. Violation of any stipulation of this agreement and or fraudulent use of certificates will be grounds for suspension of certification privileges and may result in prosecution as provided in sections 581.141 and 581.211 Florida Statutes.

**NAME (Please Print):** ____________________________________________________________________________
